Existing + proposed WC lines	60,000.00	120,000.00	
(Shortfall)/Excess in WC lines	(61,462.23)	(14,823.08)	

- Borrowers have granted TL of USD250K and OD1 of USD60K to refinance from Maybank & Philip Bank, and to use as working capital.
- In fact, phone card, money transfer and exchange should have no stockholding and debtor. So, the WC should focus on revenue of Jewelry only.
- For the first 5 months of 2016 (Jan to May), the revenue of gold & platinum only reported USD552.1K, i.e. USD122.6K per month. In this view, WC need shall be of USD121.5K to smoothly manage their cash flow in business based on the WC table above while the existing WC limit is at USD60K. Noticeably, there is a shortfall of about USD61.5K.
- Moreover, the debtor turnover is up to 15 days. So, the borrower has faced on shortfall of working capital when the debtors ask for delay payment, sometimes. Mr. Chea Yi further revealed that the inventory, A/R, and A/P are summed of about USD80K, 50K, and 30K respectively.
- All in all, the borrowers have requested additional OD2 of USD60K for additional working capital in business.

3.0	Comment by Credit Evaluation:
1.	Borrower has been operating jewelry shop in Kien Svay District for more than 20 years. Besides than selling jewelry, they also provide money exchange & transfer service. The money exchange is mainly for KHR to USD and vice versa. During the latest site visit, the business remains unchanged. Existing borrowings with us has been satisfactory without any incidence of late payment or cheque return noted.

- ✓ 2. The additional working capital of USD60K is to support the jewelry/gold business mainly in supporting for the stockholding of the gold with average stockholding period of about 1 month. Existing WC requirement is justified to support the business.
- ✓ 3. Comments on financials:-
  - i. Majority of the income is generated from the jewelry business supplemented by money exchange and money transfer business. All the transaction is on cash terms where the reported revenue is supported via physical purchase invoices furnished from March to April 2016 with average of USD184.5K which is about 43% of total reported COGS. The shortfall is due to most money exchange and transfer with small amount is without physical invoice where borrower manually recorded the transaction. Average monthly deposit of around USD20K is only 5% of reported revenue. Nevertheless, we draw comfort on the satisfied site inspection conducted by LU and repayment record is prompt for the last 12 months.
  - ✓ ii. Overall profit margin is only 3.21% as the earnings from money transfer and exchange is very minimal which is in line with industry practice. Average EBIT of USD12.9K in 2015 provides adequate DSR of 3.25x.
4. Major issue:-
  - i. Gearing up on existing property with main collateral is a parcel of vacant land in Kien Svay. LU reported that there is no other hard TD property while their current residence has already been charged to us as well.
  - ✓ ii. Lack of physical verification of invoices as the business revenue mainly generated from money exchange and transfer which is all in cash terms.

**4.0**

**Recommendation by Credit Evaluation**

- i. I would concur on branch's recommendation for Management's approval subject to:-
  - a. Lower OD limit at USD40K instead.
  - b. Interest rate for OD1 & OD2 at 8.65% & TL to be reduce to 8.50% as per original rate before revision of ECOF.
